

To all final year students:

NOMURA

OPERATIONS FULL TIME ANALYST PROGRAM

Corporate Infrastructure contributes to the success of the entire organization, supporting the business in delivering innovative financial solutions that set Nomura apart in the global marketplace. The finance industry is highly competitive and fast paced, making strong infrastructure teams fundamental to Nomura's success. Working in these areas will expose you to a variety of business critical activities and give you a sense of how Nomura operates on a global scale.

Within Corporate Infrastructure, the Operations Division is currently recruiting for Analysts in our Hong Kong office.

The Operations Division provides the support and control infrastructure that enables the Firm to develop and deliver financial products throughout the world. Working with the Sales, Trading and Information Technology Divisions, Operations professionals are responsible for the management and execution of transactions in a manner which maximizes profitability and minimizes risk. Our goal is to provide innovative and efficient approaches to the systemic investment, liquidity and risk management needs of the Firm's clients.

Your career with Operations will begin with a structured training program to provide you with business, technical and professional knowledge. As a graduate analyst, you will work as an integral part of the assigned group, fully engage in daily operations activities and be able to apply your learning to your role. Review feedback will be given to you during your initial three months' probation period. There will also be ongoing training session to support your continuous development.

Requirements:

- Strong academic background required; good banking / finance knowledge preferred.
- Excellent written and verbal skills in English. Proficiency in Chinese is an asset.
- Demonstrated analytical and problem-solving skills.
- Ability to multi-task with strong attention to detail.
- Ability and willingness to be a team player, to take initiative and be resourceful.

We welcome graduates from all academic disciplines who expect to graduate by June 2010 to apply.

Application method
